

Botanische Sammler-Signaturen

Zusammenstellung: Georg E. Probst (georgske)

Stand: 20.03.2024 - 2000 Datensätze

In diesem PDF-Dokument sind **handschriftliche Sammlernamen** von Herbaretiketten u.a. aus verschiedenen Herbonauten-Missionen des BGBM (Botanischer Garten und Botanisches Museum Berlin - Bo) dargestellt.

Die Zusammenstellung soll bei der Übertragung der Etikettentexte in die Datenbanken des Botanischen Museums Berlin zum einen falsche Lesarten von botanischen Sammler-Signaturen vermeiden helfen, zum andern bei der Recherche von schlecht lesbaren Signaturen Lösungen anbieten.

Übernommen wurden handschriftlich auf Herbaretiketten vermerkte Namen, ohne eine Wertung oder eine Auswahl zu treffen. Das wäre auch schwierig, bei der enormen Anzahl von botanischen Sammlerinnen und Sammlern bzw. Bestimmerinnen und Bestimmern.

Lebensdaten und volle Namen der Sammler bzw. Bestimmer wurden, soweit mit einfachen Recherchen auffindbar, aus verfügbaren Datenquellen im Internet und aus gedruckten Standardwerken entnommen.

Zur Verifizierung der Personendaten und für weitergehende Informationen sind die Datensätze mit entsprechenden Quellen verlinkt und können mit nur einem Klick direkt aus dem PDF-Dokument aufgerufen werden.

Oft sind Daten der Personen mit einfacher Recherche nicht aufzufinden bzw. zu verifizieren. Ist dies der Fall, wurde das Sammlerdatum des entsprechenden BGBM-Belegs eingetragen (Legit), daher gibt es keine Quellenangaben in der rechten Spalte.

Die Länder in denen die genannten Botanikerinnen und Botaniker gesammelt haben sind in der Regel aus den Herbarbelegen entnommen, bzw. in manchen Fällen mit Informationen aus dem Internet ergänzt - jedoch ohne Anspruch auf Vollständigkeit.

Bitte beachten Sie, dass es sich hier nicht um durchgehend verifizierte Autographen der Personen, sondern oftmals um die Handschrift von anderen Botanikern, Herbarbesitzern oder Institutsmitarbeiterinnen und -mitarbeitern, die das Etikett beschriftet bzw. neu erstellt haben. Deshalb sind bei zahlreichen Sammlern verschiedene oder ähnliche Handschriften zum Vergleich dargestellt.

Einige gesicherte Autographen wurden aus externen Quellen entnommen. Diese sind mit einer Quellenangabe bzw. einem Link versehen.

Sollten Sie Fragen, Anregungen, Korrekturen und Hinweise zu dieser Liste haben oder zur Ergänzung von Namen und Lebensdaten oder Verlinkungen zu externen Quellen beitragen können, würden wir uns darüber freuen.

Wenden Sie sich dazu bitte an das Herbonauten-Team unter herbonauten@bo.berlin

Die Datei wird in unregelmäßigen Zeitabständen aktualisiert.

Das aktuelle PDF finden Sie immer im Herbonauten-Wiki des Bo: https://herbonauten.bgbm.org/wiki/Datei:Sammler_Signaturen_GEP.pdf

Botanical Collector's Signatures

Compilation: Georg E. Probst (georgske)

State: 20.03.2024 - 2000 Data records

This document contains **handwritten collector's names** of herbarium labels e.g. from various Herbonauten missions of the BGBM (Botanical Garden and Botanical Museum Berlin - Bo).

The compilation is intended to help avoid incorrect readings of botanical collector signatures when transferring label texts of herbarium specimens to the databases of the Botanical Museum Berlin, and also to offer solutions when researching signatures and handwritings that are difficult to read.

Handwritten names on herbarium labels have been adopted within this compilation without making any evaluation or selection. This would also be difficult given the enormous number of botanical collectors and identifiers.

The biographical data and full names of the collectors and identifiers have been taken from available data sources on the Internet and from standard printed works.

To verify the personal data and for further information, the data records are linked to corresponding sources and can be called up directly from the PDF document with just one click.

It is often not possible to find or verify personal data with a simple search. If this is the case, the collector's date of the corresponding BGBM record has been entered (Legit), so there is no source information in the right-hand column.

The countries in which the botanists mentioned collected are generally taken from the herbarium specimens, or in some cases supplemented with information from the Internet - but without any claim to completeness.

Please note that these are not consistently verified autographs of the persons, but often the handwriting of other botanists, herbarium owners or institute employees who have inscribed or newly created the label. For many collectors different examples of handwritings are provided.

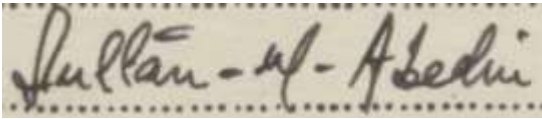

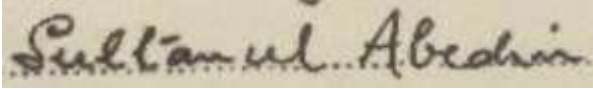

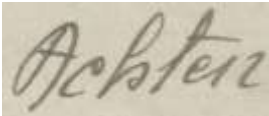

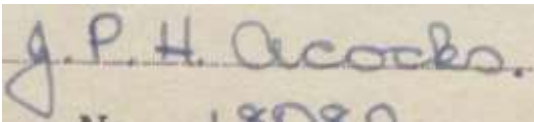

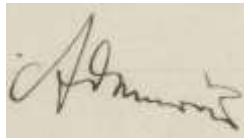

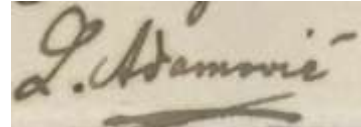

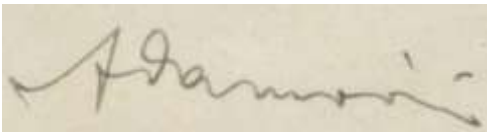

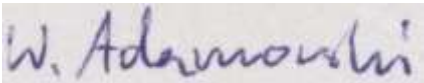

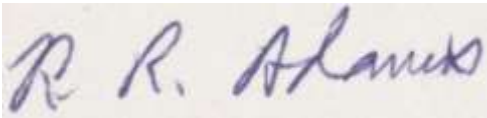

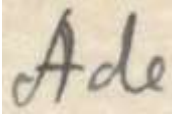

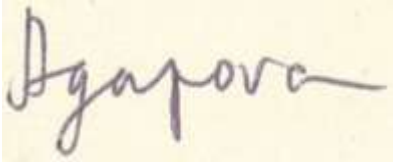

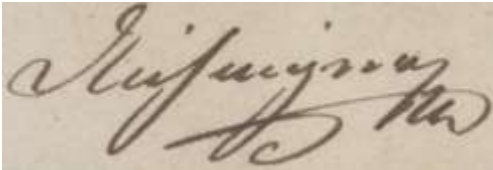

A few secured autographs were taken from external sources. These are provided with a source reference or a link.

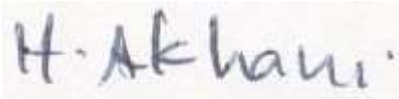

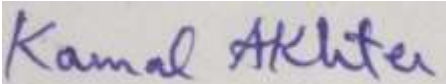

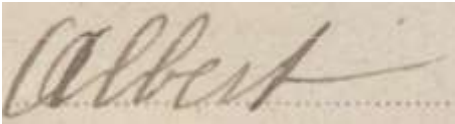

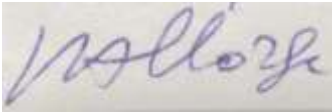

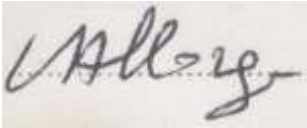

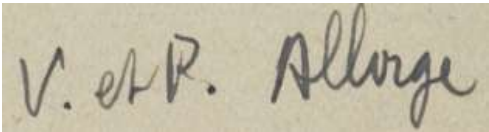

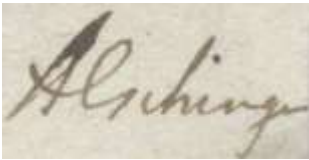

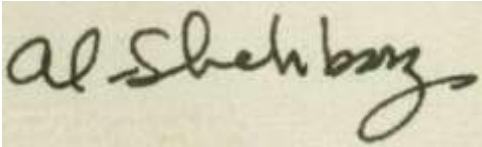

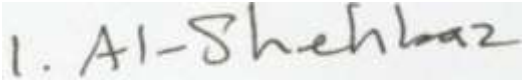

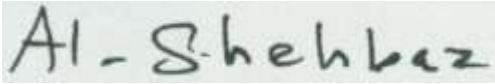

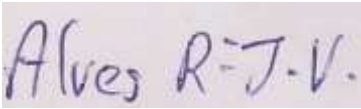

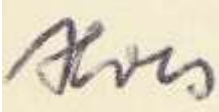

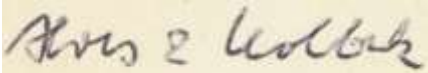

If you have any questions, suggestions, corrections or comments on this list, or if you can contribute to the addition of names and biographical data or links to external sources, we would be delighted to hear from you.

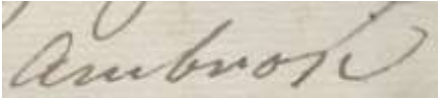

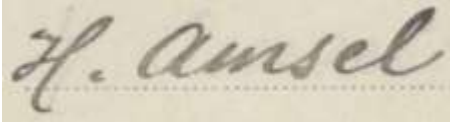

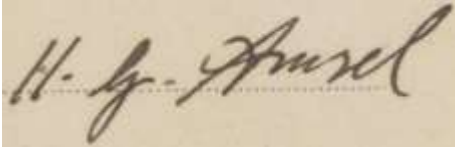

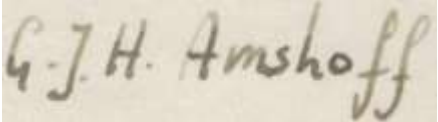

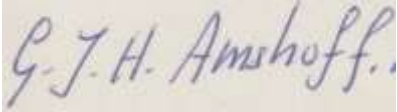

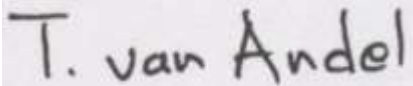

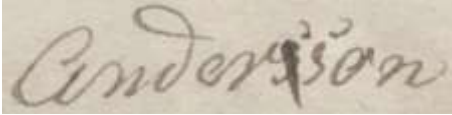

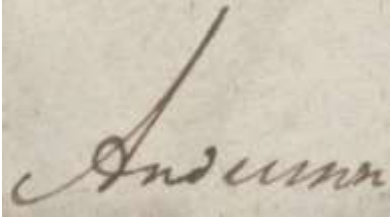

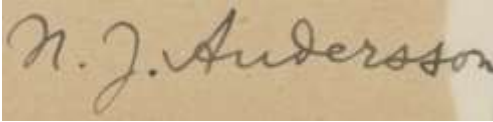

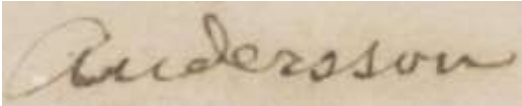

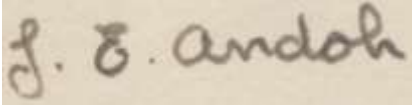

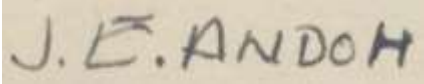

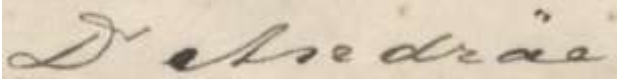

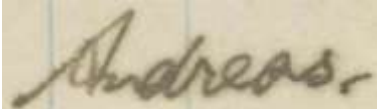

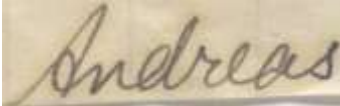

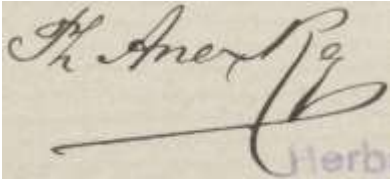

Please contact the Herbonauts team at herbonauten@bo.berlin

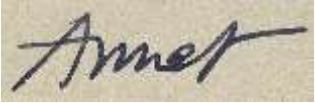

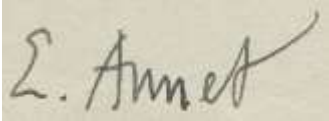

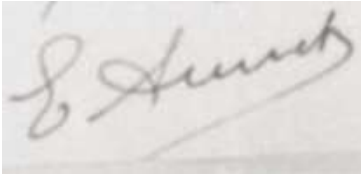

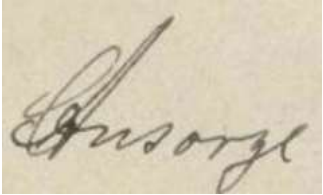

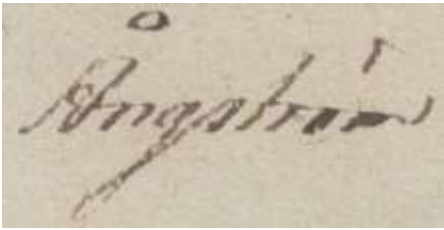

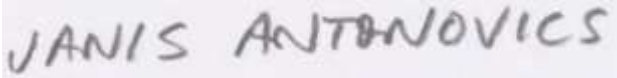

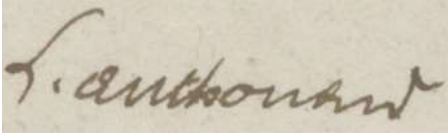

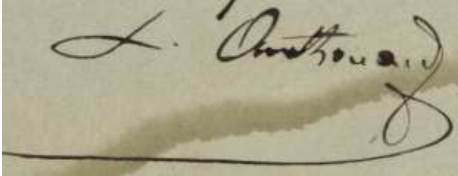

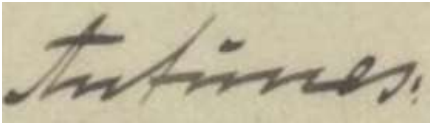

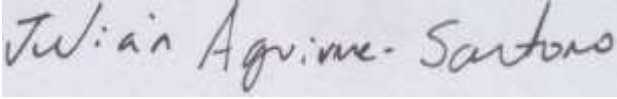

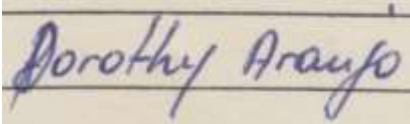

The file is updated at irregular intervals.

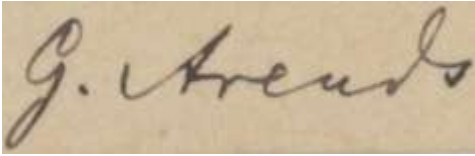

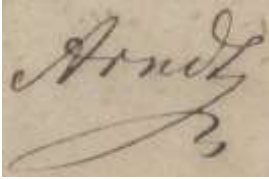

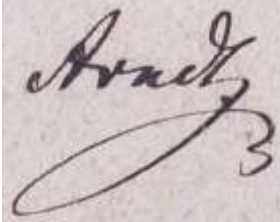

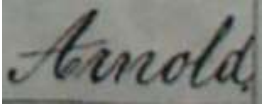

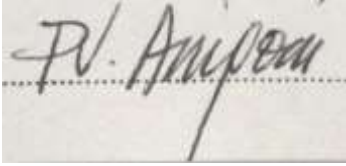

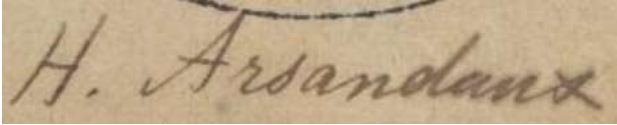

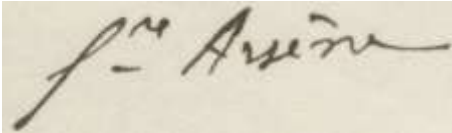

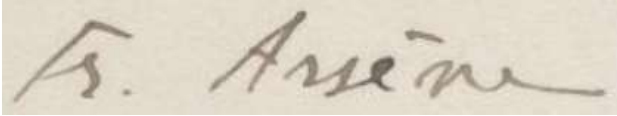

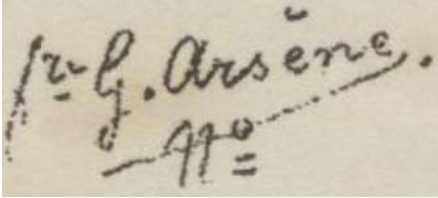

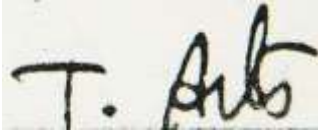

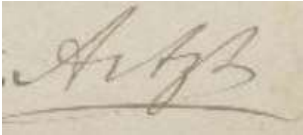

You can always find the current PDF in the Herbonauts Wiki of the Bo: https://herbonauten.bgbm.org/wiki/Datei:Sammler_Signaturen_GEP.pdf
